BRITISH STAND FIRM AS A ROCK

Prisoners and Machine Guns Captured

London, April 2.—In the sector between the Avre and Luce Rivers yesterday the British took fifty prisoners and the war office announces thirteen machine guns were captured. The statement follows:

"In the course of the fighting yesterday in the area between the Avre and the Luce rivers we captured fifty prisoners and thirteen machine guns. A large number of German dead were found on the ground in this locality by us, and two counter attacks attempted later in the day by the enemy were broken up with heavy losses by our artillery. A German battery in action in this area was successfully engaged at short range and silenced by our machine guns.

"A successful local enterprise, carried out by us in the neighborhood of Hebuterne, resulted in the capture of seventy-three prisoners and three machine guns. Many Germans were killed in this operation also, and hostile attacks during the afternoon were completely repulsed.

"On the remainder of the front successful raids, in which we secured several prisoners and killed a number of the enemy, were carried out in the neighborhood of Achilleux and Hebuterne.

British Army Headquarters, in France, April 2.—The German attack along the Scarpe river had for its objective the city of Arras and the formidable Vimy Ridge. Their plans were laid to carry out this ambition and the attack was supported by a very heavy assault south and southwest of Arras, units of at least eleven German divisions being employed here.

PENHOLD

The young people of the Presbyterian Church met last Friday for a social evening. Games and refreshments were indulged in and much enjoyed. Miss Van Larkin, from Calgary, who is spending her Easter with Mrs. Hart, sang a very pretty song which was a delight to all present. The next meeting will be held on Friday, when Rev. Brown, of Red Deer will conduct a missionary meeting. Everybody welcome.

The ladies of the Red Cross will meet next Thursday evening, April 11th, at the home of Mrs. Aubrey Wood. A great deal more help is wanted, so a special call is made for all to turn out.

Mrs. Norman Stewart received from Mr. James Reeves, a very acceptable subscription of \$5.00 for Red Cross work.

Mr. Trench has accepted the position offered him by the Woodland Dairy Co., of manager at their branch at Ponoka, where he will take charge shortly.

Mrs. Owen has given up her position as teacher of the High school and left Penhold last Friday to join her husband at Bittern Lake. Mrs. Lawrence has returned to Pine Lake to help his father on the farm. All the girls are very downhearted.

Miss Rath, of Calgary, spent her Easter with Mr. and Mrs. Norman Stewart.

Mr. Leslie Walker spent a short visit with his brother, Mr. Archie Walker last week.

Mrs. Barton left Penhold last Friday for a few days' holiday with friends at Calgary.

Miss Pennington returned home last Monday.

Immo Johnson has gone to Staveley to work.

Pte. W. Winters, of Edwell, who has just returned from the front, paid a fleeting visit to Penhold. Billie is looking very fit.

Miss Eyre was taken very sick with pneumonia last Tuesday. Miss Kate Eyre was sent for from the industrial school. Mrs. Charlie Eyre also came up to help nurse for a few days, and Mrs. Ellsworth is now with them, and we are glad to say that the last report was very satisfactory, and we trust Miss Eyre will make a speedy recovery.

Mr. Spencer Wyndham was taken to the Memorial Hospital, Red Deer, last week.

Miss Winnie Kennings spent her Easter holiday at home, returning to Evans last Monday.

Mr. J. A. Courty made a two days' visit to Edmonton. He reports that Edmonton is very busy.

Mr. Miles returned home after several days spent at Coronation.

Mr. McPhee, of Edwell, with a car of machinery and horses for Lougheed, where he has a farm which he means to work this summer.

A very pretty wedding took place last Wednesday, when Miss Florence

TO PLACE ALL ON EQUAL BASIS

UNIFORM ADMINISTRATION OF MILITARY SERVICE ACT SOUGHT BY QUESTIONNAIRE METHOD

The great crisis through which the world is now passing has served to emphasize among a great many other things the axiom that responsibility is the price of liberty. Because equal privileges are enjoyed by all citizens of Canada, it is the duty of our Government to see, as far as it is able, that all are made to bear equal sacrifices. That the Dominion's War Government is not unmindful of this duty in this respect is evidenced from the care that is being taken to ensure the equitable administration of the Military Service Act. Questionnaires are about to be addressed to all exempted men so as to permit of a checking of the decisions in the case of each to the end that uniformity be established in the application of the legislation. These questionnaires must be returned promptly upon receipt, as non-receipt will be regarded as constituting failure to return questionnaire, properly filled in as required. The Government is determined that the Military Service Act shall be administered fairly, and in this determination they will have the active support of all followers of democratic ideals.

BRITISH SUCCESS IN MESOPOTAMIA IS CONTINUING.

London, March 30.—The British column, which recently won a striking victory on the front along the Euphrates river, in Mesopotamia, putting out of action the entire Turkish force in the Hitt area, has advanced to a point 85 miles beyond. His, the war office announced. The number of prisoners has been increased to 5,000. The statement concludes: "Full particulars of the capture have not been received, but they are of great importance. Large deposits of Ammoh have fallen into our hands, containing quantities of ammunition, mine throwers, guns, etc."

LIVE STOCK BULLETIN

Cattle.—With a brisk demand and rather light receipts of killing cattle, the market fully recovered from the slump of the preceding week, and good prices were maintained throughout. We made sales of full loads of steers at \$12.15, \$12.00, \$11.85, \$11.50, and \$11.25, with part loads selling at \$12.00, \$11.80, \$11.75, \$11.50, and \$11.25. A few choice grain fed steers, \$11.75 to \$12.00, but extra good cattle would bring slightly more. Medium steers at \$11.00 to \$11.50 and common steers \$10.00 to \$11.00. The run of fat cows was rather light. One lot of choice cows and heifers sold by us by Dr. Foster, of Olds, brought \$10.25 and various others sold from \$9.50 to \$10.00 with fairly good stuff from \$9.00 to \$9.50, medium cows \$8.25 to \$9.00, common cows \$7.50 to \$8.00. Cannons and cutters sold from \$4.25 to \$5.25. Top bulls are worth \$8.00 to \$8.50. A large number of stocker steers changed hands at prices ranging from \$7.75 to \$8.25, with a few heavier ones showing some condition realizing 10 and 15 cents more. The stocker cows offered are a very inferior lot of stuff and sell slowly with the dealers asking from \$7.00 to \$8.00. Average lot of heifers would bring from \$5.50 to \$7.50, and very old cattle from \$4.00 to \$5.00. Good fat veal calves 150 to 250 would bring 11 cents.

Top price on cattle a year ago \$9.50. Hogs.—Good prices offered at \$20.10 and advanced to \$20.25 on Thursday. The offerings throughout the week were very light and Friday's hogs took a further rise, when we sold our receipts at the record price of \$20.85.

Top price on hogs a year ago \$15.10. Sheep.—No fat sheep were offered. We quote choice fat lambs \$16.00 to \$16.50. Wethers \$15.00 to \$16.00 and ewes \$13.00 to \$14.00.

GIRLS' CONVENTION

A girls' convention will be held in Calgary on Thursday and Friday, for teachers of 'teen age and girls themselves, something along the line of standard efficiency for boys. Among those going are the following: Mrs. Blain, Mrs. Mann, Miss Moore, Mrs. Searnack, Rita Gars, Miss Nelson, Mrs. Moys, Minnie Hewson, Leola Smith, Muriel Proctor, Milie Moore, Una Dale, Betty Mahaffy, Allice Parko, Phyllis McGee, Mrs. May, Mrs. Mahaffy, Leola Harens, Lily Reinhold, Lila White, Doris Pyke, Lillian Gudmundson, Kate Carwell, Vivian George, May Pixley, Rita Ball, Isabelle Hart, Ida Johnson, Avis McDonald.

FALSE IMPRESSION OF R.F.C. RULES IS CORRECTED.

Lieut. MacNamara, the officer in charge of recruiting for the Royal Flying Corps in this district, has written, asking us to correct the impression held by many men who come under the Military Service Act, that they must wait until they have been drafted into a Depot Battalion before they can make application to join the Royal Flying Corps.

On the contrary a man who is liable to draft should make application at once, in order that the necessary steps may be taken for his immediate enlistment into the Royal Flying Corps.

Further information may be obtained from the nearest representative, who is Mr. A. C. Goss, at The News Office, who will be pleased to give information possible to intending recruits.

MILITARY NOTES

Pte. A. Mallin, who joined up with the 50th Edmonton, returned home last week. He worked for Arthur Rogers before enlisting.

Alfred Poirier, who joined up with an artillery unit and saw considerable service at the front, arrived in Red Deer Good Friday on a furlough. He has leave for a month to look up his property in England.

Pte. W. E. Harvey twice wounded, and invalided home, at present in convalescence at home, was up with Mrs. Harvey and family to visit his sister Mrs. Jarvis at Sylvan Lake recently.

Pte. Stephen (Samuelson), of the 18th, returned by the early morning train Thursday last. He joined up with Col. Robinson's unit and saw three months service in the trenches, after which he was invalided home for some time, before being invalided home. He is only nineteen now.

Bert J. B. Durand came in on Wednesday's train and was given a warm welcome. He was one of the very first to respond to his country's call, being a French reservist, and he has been a great deal of service, having been in the last battle of the Somme, where he was wounded several times, though not severely. He has the proud distinction of wearing on his breast the French Military Cross for conspicuous bravery. He is dressed in the French uniform, and looks exceedingly well.

LOCHERN L.I.D. 401

DOMINION LANDS SUB-AGENCY AT RED DEER.

Corp. R. C. P. Gee received word on Monday from the Department of the Interior that a sub-agency of the Dominion Lands Office, Calgary, had been opened at Red Deer, and that he had been appointed agent. It is expected that the Inspector will be along in a day or two to complete arrangements for the sub-agency here.

RIOTING IN QUEBEC

THREE CIVILIANS KILLED.

Quebec, April.—The riotous faction in Quebec and the military forces which have taken over the policing of the city, fought a battle last night in Stoches, the lower section of the city, as a result of which three civilians were killed and two soldiers and four citizens were wounded, and one hundred men placed under arrest.

The fighting lasted from 8.30 until midnight, and during this time the soldiers fired revolvers haphazard at the military from doorways and from behind snowbanks. The military, who fired on disturbers with machine guns were much hampered in locating them by reason of a thick fog which covered the city.

No official list of the casualties was available tonight, and it is possible that the figures given above, which were compiled from reports available at 1 p.m., may be added to.

E. G. Johns, the furniture man, was unloading an 18,000 car of furniture last week, covering all kinds of goods. Evidently he is preparing for a big season's trade, as he has a large stock of his full share of all business in his line of goods.

Mr. and Mrs. R. H. Geddes returned from their week-end trip Sunday and spent Easter with friends in the city. They will take up their residence in Innisfail, Mr. Geddes being a member of the Bank of Commerce staff of that town.

E. A. Town, of the Lyric, returned from a visit to the coast last week. He reports the weather there decidedly damper. It rained a little the first day he was there and each day it increased until it was a downpour the day he left. He was glad to get back to Alberta.

E. R. Hill is determined to do his bit this summer to help along the production of food stuffs, so he will run a fifty acre farm in North Red Deer, as well as a fifty acre farm in South Red Deer, besides feeding a bunch of cattle. Mr. Hill will therefore reside in the Fallow home, North Red Deer, for the present.

Who is the greatest woman in all history? One hundred and fifty school teachers recently answered the question, and with enthusiasm and unanimity the judges awarded the prize to the one who made this reply: "The wife of a farmer of moderate means who does her own cooking, washing, ironing, sewing, brings up a family of boys and girls to be useful members of society, and has time for intellectual improvement."

The Young Folks' Fireside Club concert and dance held in the Springvale school house on Thursday evening March 28th, was quite a success. The amount raised for the Red Cross fund was \$32.00. All those present had a most enjoyable time, and hope for another entertainment of a like nature.

THE sole head of a family, or any
male over 18 years old, who was
at the commencement of the present
war, and has since continued to be a
British subject or a subject of an
allied or neutral country, may home-
stead a quarter section of available
Dominion land in Manitoba, Saskatch-
ewan or Alberta. Applicant must ap-
pear in person at Dominion Lands
Agency or sub-Agency for District.
Entry by proxy may be made on cer-
tain conditions. Duties—Six months
residence upon acquisition of land in
each of three years.

In certain districts a homesteader
may secure an adjoining quarter sec-
tion as pre-emption. Price \$2.00 per
acre. Duties—Reside six months in
each of three years after earning
homestead patent and cultivate 50
acres extra. May obtain pre-emption
patent as soon as homestead patent on
certain conditions.
A settler after obtaining his home-
stead patent, if he cannot secure a
pre-emption, may take a purchased
homestead in certain districts. Price
\$2.00 per acre. Must reside six months
in each of three years, cultivate 50
acres, and erect a house worth \$200.00.
Holders of entries under the time
of employment as farm laborers in
Canada during 1917, as residence du-
ties under certain conditions.
When Dominion Lands are adver-
tised or posted for entry, returned
soldiers who have served overseas
and have been honorably discharged
receive one day priority in applying
for entry at local Agency's Office (but
not sub-Agency). Discharge papers
must be presented to Agent.

THE CONCRETE MAN

THE KAISER'S LAST PRAYER.

Mein Gott, will you be mein bairner?
You don't know who I am—
But I'm der German Kaiser.
Or Emperor Wilhelm.
You know I vup dem Belgians
Und mit bullets all Russians fall,
Und in 1841 vup France and Italy,
Und blow up Johnny Bull.

For all dem oder nations
I didn't gift a damn.
If you will be mein bairner
Und vup die Unklesman.
You know I got dem submarines
All Europe know dem well,
But Edison's got a batent out
Vot blows dem out to hell.

Now, Gott, if you will do dis,
Den you and I vill always lauf,
Und I'll be emperor on der earth
Und you be emperor up above.
But Gott, if you refuse me dis,
Tomorrow night at Jeyen,
I vill call out all my Zepplins,
Und declare war on Heffen.

I wouldn't ask this favor, Gott,
But I Modern Dictator.
Dot ven Edison pushes dot button on
I got no more submarine.

ANSWER TO THE KAISER'S PRAYER.

Si Kaiser, I am sorry

I cannot grant your prayer:
The reason is so plainly seen—
From here, if not from there—
You murdered those poor Belgians,
Who had done you no harm.

You burned their homes and children
And ruined all their farms.
You humbled poor old Johnny Bull
And sunk his battleships;
Killed many thousand Frenchmen
And heeled your bloody lips.

But, say, 'Sir Kaiser Wilhelm,
You sure did strike a snag
When you tackled my son Sammie,
And then began to brag:
That you would make him pay for all
Because he has the gold;

But pride is just before a fall,
In the Good Book we are told.
You ask me to help you now,
To whip my favorite child;
What has he ever done to you
To make you act so wild?

Is it because he stands for love
And friendship to the end;
Or that he wants democracy
To rule the hearts of men?
I helped him twice lick Johnny Bull,
And haughty Spaniards, too,
So now I think it's just the time
I helped him to lick you.

When my son Sam gets thru with you
I haven't any doubt,
There'll not be enough Germans left
To raise a decent shout.

You want to be the boss on earth,
But that is still my job.
You've got to be put out of biz,
So the world you cannot rob.
So I'll whisper to son Sammie,
Some secrets that I know,
And to Davy Jones' locker
Your submarines will go.

I've thought of just the place for you
And it will suit you well—
I'll give the devil a better job,
And make you boss of Hell.

—Exchange.

WESTERN LAND TO BE WORKED ON CONTRACT

LEADING CANADIAN CONTRACTORS WILL SUPPLY LABOR AND MACHINERY.

Ottawa, March 18.—The plans are
now nearly completed by which some
twenty-five leading Canadian contrac-
tors expect to farm from three hun-
dred to five hundred thousand acres
of virgin land in Western Canada this
year. Mr. J. P. Anglin, head of one
of the largest Montreal contracting
firms, has marked out the details and
they have received the approval of
the Food Board. From one hundred
to one hundred and fifty large-scale
tractors will be secured for breaking
the land and other machinery will be
purchased on a big scale from Cana-
dian factories.

The contractors will utilize their
own equipment to secure the neces-
sary labor and to handle the under-
taking in the same manner as a big
job would be dealt with. Expert
western agriculturalists will be in
charge of the work, and will super-
vise all the operations.

WILL HIT SPECULATORS.

It is planned to secure large tracts
of land in Saskatchewan and Alberta
which have been held by speculators
and have not been previously farmed.

The contractors in promoting this
plan are impelled by patriotic and
business motives. They feel that
they are undertaking at the present
juncture a patriotic venture, but in
addition the same business methods
which they have successfully applied
in contracting will, they hope, make
it a paying scheme.

"AGRICULTURAL ENGINEERS."

One criticism which has been made
is that contractors know nothing of
farming. "I take a bridge contract,"
replied one contractor, who is in
Ottawa, and I employ a bridge engi-
neer to build it. I am taking a farm
contract, and I will get an agricultural
engineer to carry it out. My business
will be to get the labor which I have,

PINE LAKE

March 22nd, 1918.

Did anybody ever see the snow go
any faster? These people who are
short of feed are looking cheerful now
that the snow is going.

Sam Hornet and Gilbert Scott are
busy on their annual trip to the lake
hunting and sawing wood.

W. Brown (Pete) is busy seeing
that the road at the North End of the
Lake is being drained properly during
the Spring freshet.

R. Page and H. Field are back
again in our midst for the summer
months.

Reg. Herbert has bought the Hy-
Lyon's place (The Old Tom McLeod
place).

Indeed quite a lot of land is chang-
ing hands. We hear that a cattle
rancher has bought the old McQuin-
nle place west of here. He comes
from the far famed state of Oregon.

Enquiries are also being made about
the country to the north of here. The
cattle men certainly have their eyes
on this part of Alberta.

By the crowds that turned up and
the money taken in, the comedy and
farce given by the Pine Lake Dram-
atic Company was sure a success. The
financial report appears in another
place. Of course there were criti-
cisms, some of them perhaps correct,
and the others anything but correct,
but I will say nothing as I believe a
short account will appear in another
place.

The same company journeyed to
Edwell last Tuesday and were re-
ceived by a packed school room. The
money went to the Red Cross at Ed-
well, and at Pine Lake half to the Red
Cross and half to the Blind Soldiers' Fund.

Mrs. Cowlehouse arrived home this
week after spending a few months in
the States.

BRITAIN AND FRANCE RESISTED GERMAN ONSLAUGHT WITH GREATEST GALLATRY

ENEMY'S ADVANCE IS CHECKED BY BRITISH AND FRENCH TROOPS DURING HEAVY FIGHTING ALONG THE SOMME

London, March 27.—British forces are not only offering strong resistance to heavy enemy attacks both north and south of the River Somme, but have carried out numerous counter-attacks during the day, resulting in regaining of ground and the driving back of the Germans at various points. The report from Field Marshal Haig tonight declares that in the operations heavy casualties have been inflicted on the enemy.

London, March 27.—The British front is standing firm along the whole line, which appears to be the strongest it has occupied since the battle began, says Reuters's correspondent with the British headquarters in France. Even at points where the line is not strong, the correspondent adds, it is being held in very orderly array, alike of men and guns, and nowhere is showing any signs of enforced retirement.

The enemy, says the correspondent, attacked at various points today, but from all reports these efforts have made no progress.

British airmen report the whole of the enemy front areas to be black with troops; 200 tanks, 300 ft. lengths 3/4 inch line shaft; power-hauling machine; set scales, 240 lbs.; lawn mower; 2 gradations; wheelbarrow, wire stretchers, crow bar, shovels, axes, forks, crosscut and buck saws, quantity of bedding, etc.

Paris, March 27.—With fresh troops the Germans attacked today the French line west of Montdidier, although their assaults were repulsed several times, they succeeded in making some advance, according to the war office announcement tonight.

London, March 27.—Tonight's news from the battle front confirms the hopeful impression formed early in the day that the British were about to go on a line that they are able to hold firmly, at least on the Somme and the Ancre rivers. Farther south in the Roye-Noyon region, the situation is less well defined, but it is stated that both the French and the British are bringing up reserves there.

The correspondent also shows greater confidence that the enemy will be held on this terrain. The German official statement tonight was significantly brief and cautious. It reports the crossing of the Ancre, but only refers to Tuesday's events, while the British war office statement shows the Germans who had been in the stream were thrown back today in counter attacks.

The news from the Somme front is distinctly encouraging. The British have captured Morlaucourt and Chipilly and advanced to Provant.

AUSTRIAN VIEWPOINT.

London, March 27.—An Austrian official communication says "The French our allies have achieved further great successes."

ENEMY DO NOT PRESS ATTACK

London, March 27.—Apart from local fighting at different points the enemy has not pressed his attacks to day north of the Somme, according to the official statement issued by the war office tonight.

"We gain ground at certain places," the statement continued.

"South of the Somme heavy hostile attacks developed during the morning in the vicinity of Meuseux and Demuin. Fighting is still going on in this sector."

Berlin, March 27.—Via London.—Successful engagements between the Somme and the Ayre rivers are reported in the German statement this evening. The statement reads:

"There have been successful engagements between the Somme and the Ayre."

"THE LINE HOLDS."

London, March 27.—"The line holds," is an essential fact as regards the situation despite the considerable German advance on the south marked by Montdidier and the extension of the attack in the direction of Arras. The stroke at Montdidier, which is probably aiming at the separation of the Allied armies, is admittedly serious, because the Paris railway is endangered, but the general disposition of experts is to reserve judgment of the ultimate consequences pending the intervention of the Allied reserves.

It is considered unlikely that these men are employed merely to prevent the enemy gaining ground, which they have been doing at such terrific cost. Correspondents at the front emphasize that the results of the British forces fighting in the open has wholly shaken off the cramped feeling of trench warfare.

The situation is described as not causing the slightest anxiety at headquarters where the gravest danger is considered over. Fresh troops or artillery are coming up steadily and in great numbers in confidence as to their strength. Troops in many parts of the line have not moved their positions for days, and are to throw back the Germans, with the exception of Montdidier, where the enemy gained a little.

London, March 23.—On the Somme the British have maintained their positions and gained ground in places by successful counter-attacks, the war office announces.

The statement continues: A number of prisoners and machine guns were captured by us in this fighting. The enemy again suffered exceedingly heavy casualties. His frequent attacks which were pressed with great determination through the day, gained only our outpost lines, after several hours of severe hand to hand fighting. His reserves were then sent forward against our battle positions and were everywhere thrown back with great loss. Our machine gun, artillery and rifle fire did great execution upon his ranks.

"South of the Somme also heavy and continuous fighting took place until late in the day in the face of reserves sent forward by superior enemy forces, have withdrawn a short distance from their advanced positions."

"North of the Somme, we maintain our positions. No serious enemy attacks have been launched during the day."

"South of the Somme, there has been heavy fighting. Our troops have been pressed back to a line running west of Hamel, Marcolle, and Demuin. On the French front, south of Demuin, the French line runs through Meuseux, La Neuville, sire Bernard and Gratibus, just west of Montdidier. There has been further heavy fighting today on this line."

Between Montdidier and Laasgney, the French counter-attack continued. Fresh French forces are arriving. East of Laasgney, there is no change in the French line.

A captured German order shows that on March 21 the objective of an enemy division which attacked near St Quentin was to be the Somme. Near Hamel, a detachment of at least 11 miles. Actually the division in question penetrated rather less than three miles."

TOTAL GUN LOSS OF THE BRITISH NOW ABOUT 600

ONE HUNDRED TANKS FALL INTO HUN HANDS.

London, March 28.—England, in considering her losses in the fighting in France, must take into consideration the "usual German exaggeration." Major General Frederick S. Maurice, chief director of military operations at the war office, said today.

"In the past," he declared, "the Germans have been guilty of the capture of prisoners and guns in round numbers not actually counted, but as anticipated from the general situation. It is reasonable to assume that the same thing is being done now."

"Our total loss of guns, either from falling into the hands of the enemy, or by being knocked out, is about 500, according to our best information. This compares with the German claim of 950."

Probably the same ratio holds good regarding German claims of prisoners, and it must be remembered that the German count of prisoners includes many of our wounded, whom we were unable to take with us."

"We have lost probably about 100 tanks, which we used exclusively in the counter attacks."

URGES PATIENCE

General Maurice said the war office was giving out the news as quickly and as fully as it was received, and he urged the public to be patient.

"In these critical times," he said, "I want to emphasize that it is every man's duty to avoid making them more critical, and to avoid being mournful. During the past few days some newspapers have raised the cry that we are concealing part of the news because it is too serious for it to be made public. This charge not only is untrue, but has had a bad effect because it has tended to create panic. It has tended to make the people believe that things are worse than they really are."

FAIR EXPLANATION

"In our communications and statements to the public we are telling the whole truth as we know it. I have

MADE IN CANADA
GILLETT'S EYE

told you on previous occasions that when we are fighting a great battle on the defensive we can not get information or sense the actual situation as quickly as the enemy. Last year in our offensive we saw the same principle working. In fact the British communications were earlier and nearer complete than those of the German."

"In defensive battle, divisional and corps headquarters are shifted, wires are down, and the men on the scene are more occupied with building up new lines than with sending news as to the exact situation to the war office."

"We at the war office are just as impatient as you are for the news, and as soon as the situation steadies we will again be receiving the hourly developments and promptly. Meanwhile let us be patient."

HUN PLANS ALL KNOWN TO ALLIES

Washington, Mar. 29.—The British withdrawal before the German advance was not according to pre-arranged plans and is "all over now," Major General J. Franklin Bell today told the senate military committee.

He said the allies have known of the German preparations for the present drive since soon after they were begun and made active preparations to face it. General Bell recently returned from the front.

General Bell was called by the Senate military committee to inform the members regarding conditions on the battlefield. He said the German generals recently were quoted as saying two months preparations were necessary to face the Germans when he was there, and declared that the British withdrawals were according to a pre-arranged plan.

"But should that go into the record," asked Chairman Chamberlain. "That's all right, it's all over now," said the general.

TURKISH ARMY AT HIT TAKEN PRISONERS

THREE THOUSAND ARE GATHERED INTO THE NET.

London, March 28.—The entire Turkish army in the Hit area in Mesopotamia have been captured or destroyed by the British, the war office announces. Three thousand prisoners were taken. The British hit is on the Euphrates river, 100 miles west of Baghdad. The town was evacuated by the Turks on March 9. The Turkish army, back on Khan-Bagdad, 22 miles above Hit, before the British column operating along the Euphrates, which has been conducting a tremendous and successful campaign.

The statement follows: "On March 26 a highly successful operation was carried out by our troops operating on the Euphrates northwest of Hit, which resulted in the capture or destruction of virtually all the Turkish force in that area."

Early in the morning our columns advanced to attack the Turkish positions about Khan-Bagdad, 22 miles northwest of Hit. Our cavalry made a wide movement around the Turkish positions to Aleppo, in the rear of the enemy.

"By nightfall the enemy's main positions north of Khan-Bagdad had been carried by assault."

WAS INTERCEPTED.

"The main body of the enemy attempting to break to the northwest, was intercepted by our cavalry and repulsed with heavy losses."

"So far it has been reported that about three thousand prisoners have been taken, including a divisional commander, two regimental commanders, about 200 Turkish officers, and a few German non-commissioned officers. In addition 10 guns, 2,000 rifles, many machine guns, 600 animals and a quantity of booty have been taken."

"Pursuit of the remaining fugitives has already been carried beyond Baghdad, 45 miles northwest of Hit."

"Our casualties were very slight."

A RIFLE IN ONE HAND AND A HAMMER IN THE OTHER.

Moscow, March 28.—Russians must take a rifle in one hand and a hammer in the other, submit to the most strict discipline and work 16 hours a day if they hope to combat the menace threatening them, declared M. Podvolny, assistant minister of war, in an address advocating the immediate creation of a regular army. He ridiculed the idea of guerrilla warfare and said that such an effort would only be a "dead end."

Russia, he said, wants dictators and business organization, instead of pious intentions. M. Podvolny urged compulsory training and conscription as well as military organization.

The Bolshevik Pravda says that recruiting for the Red Army is unsuccessful so far because of the opposition of the bourgeoisie, who must be removed by a reign of terror if necessary.

CHILDREN'S EXTENSION SOLE BOOTS

A lovely elk tanned brown laced boot, with wide extension sole and full round toe. Soles are heavily outside sewn and project sufficiently to fully protect the uppers; they come with heels in the smaller sizes, and are always popular with the kiddies because of their "mannish" appearance. Sizes 5 to 7, \$2.75; 7 1/2 to 10 1/2, \$3.35; 11 to 13, \$3.75.

LADIES' FINE FOOTWEAR

In kids we have some of the best Canadian makes in which are shown Turns and Welts in buttoned and laced. Our range, while not too extensive, is very carefully selected, and our prices are certainly lower than the same goods are sold for in the larger cities. We shall be very pleased to have you inspect these new goods; the Prices are \$7.75, \$8.00, \$8.50, and \$10.00

Here is another splendid line—a gun metal calf, with dull mat top, straight lace style English walking last, with fancy stitched winged tipped design. Genuine Good-year welt, with sensible military heel. We're proud of this boot and of the price we have on it— \$9.50

LADIES' PUMPS

We have them as low as \$3.50, and they are worth just half as much more if bought regularly; we cleaned out the balance of a stock in a city warehouse and got our own price; other pretty lines at \$5.50, \$6.00 and \$6.75.

LADIES' OXFORDS

Blucher cut, a nice sensible Oxford with an easy last, comfortable and roomy, round toe and military heel—looks as if it might make life's walk easy. Priced at \$5.50

CORRESPONDENCE

Sporting Editor, Red Deer News.
 Sir—As president of the Alberta Branch of the Amateur Athletic Union of Canada, I have the honor to call to all those interested in the fostering of amateur athletics to get behind the activities of the branch and make it once more a power in the land. Owing to conditions due to the war, our affiliated clubs and leagues have been greatly reduced and the Board of Governors, who have necessarily carried on the work for the last three years without election, has gradually been depleted until the time has come when the branch must be made once more representative of our athletic activities. After a careful consideration of the athletic situation of the province, I feel that the carrying on of senior amateur sport is not feasible, but I believe that we should take hold of the intermediate and junior athletics, and, in addition, hold ourselves in readiness to undertake the control of such senior sport as is being carried on by the various clubs. We, of course, do not desire that the control of the branch over the same should be maintained. We have at present a letter from the Calgary Senior Baseball League requesting a sanction from us for the carrying on of their league without the requiring of amateur cards from their players. We, of course, cannot give no sanction, as to do so is not in our power as a branch of the A.A.U. of C., and it should be clearly recognized by all those planning to take part in such leagues that should they hold an amateur card, the same will be suspended upon their playing in the league and may only be re-issued at the conclusion of the league at the discretion of the Board of Governors upon the player furnishing satisfactory proof that he has received no remuneration whatsoever for his services.

It is not possible to arrange a suitable time and place for a representative general meeting of the branch for the reception of new members and the election of officers, so we have decided to first have applied unity to all organizations, athletic clubs or leagues engaged in the promotion of amateur sport to join the branch and then we propose to have a letter, nomination and ballot for the election of officers and Board of Governors.

First, however, I wish to give some details from our constitution.

Membership in the branch shall be limited to amateur organizations promoting some branch or branches of amateur sport.

At all meetings of the branch representation shall be as follows:
 A. Leagues—A team league of five clubs or under, 1 delegate; a team league of five clubs, but not over ten, 2 delegates; a team league of over ten clubs, 3 delegates.

B. Athletic clubs shall be entitled to one representative for each 200 members up to 600.

The annual membership fees for leagues shall be \$2.50, \$5.00, or \$7.50, according as they are entitled to 1, 2, or 3 delegates; that for clubs as follows: \$2.50 for clubs of 50 members and under; \$5.00 for clubs of over 50 and not over 200; \$7.50 for clubs of over 200 members.

The affairs of the branch are managed by a board of Governors composed as follows: (a) the officers of the branch, i.e., chairman, vice-chairman, and secretary-treasurer, all of whom are elected by majority vote at the annual meeting; (b) one representative elected by each member club; (c) three members at large, elected by the board as chosen above, each election to be a nomination by the Chairman or by the three members at large.

It is very essential to the continuance of amateur sport that all organizations, clubs, or leagues promoting amateur sport should give their active support to the branch, and we therefore request all such to send in their application for membership.

Such applications will be accepted up to Saturday, April 6th, 1918, after which date arrangements for the nomination and election of officers and Board of Governors will be made. Applications for membership should be addressed to myself, c/o the University of Alberta, Edmonton. May I urge all amateur athletic bodies to join with the branch and make it the representative body; it must be to satisfactorily carry on the control and encouragement of amateur sport in the Province.

W. MUIR EDWARDS,
 President, A.A.U. of C., W. M. C.,
 Edmonton, Alta, March 25th, 1918.

Income Tax Forms

Are now available

Returns must be filed on or before 31st March

THE Dominion Income War Tax Act requires you to fill in one or more of the five special Forms provided before 31st March, 1918. In order to assist the public to understand just what is required of them, information on each Form is given below. Read carefully, then get three copies of the form that fits your case and fill them in. Answer all questions fully and accurately. For making false statements, a penalty of \$10,000 or six months' imprisonment, or both, is provided.

Individuals.—All persons unmarried, and all widows or widowers without dependent children, whose income is \$100 a year or over, must fill in Form T-1. All other persons whose income is \$3000 or more, use the same Form. Where any income is derived from dividends, list amounts received from Canadian and Foreign sources separately. Fill in pages 1, 2 and 3 only. Do not mark on page 4. Partnerships, as such need not file returns, but the individuals forming the partnerships must.

Corporations and Joint Stock Companies, no matter how created or organized, shall pay the normal tax on income exceeding \$3000. Use Form T-2—giving particulars of income. Attach a financial statement. Under Deductions, show in detail amounts paid to Patriotic Fund and Canadian Red Cross or other approved War Funds.

Trustees, Executors, Administrators of Estates and Assignees use Form T-3. Full particulars of the distribution of income from all estates and trusts must be shown as well as details of amounts distributed. A separate Form must be filled in for each estate.

Employers must use Form T-4 to give names and amounts of salaries, bonuses, commissions and other remuneration paid to all employees during 1917 where such remuneration amounted in the aggregate to \$1000 or over.

Corporation Lists of Shareholders.—On Form T-5 corporations shall give a statement of all bonuses, and dividends paid to Shareholders residing in Canada during 1917 stating to whom paid, and the amounts.

Figures in every case are to cover 1917 income. All Forms must be filed by March 31st. For neglect, a fine of \$100 for each day of default may be imposed.

In the case of Forms T-1 and T-2, keep one copy of the filled in Form and file the other two with the Inspector of Taxation for your District. In the case of T-3, T-4 and T-5, keep one copy and file the other two, with the Commissioner of Taxation, Dept. of Finance, Ottawa.

Forms may be obtained from the District Inspectors of Taxation and from the Post-masters at all leading centres.

Postage must be paid on all letters and documents forwarded by mail to Inspector of Taxation.

BOARD OF CONTROL AFTER FOOD HOGS.

Winnipeg, March 20.—The Winnipeg Board of Control has decided to assume responsibility for prosecuting all food storage houses and other food handlers found to be hoarding eatables. Machinery to inspect establishments in which food stuffs are stored and to prosecute owners who violate the food control regulations has been set in motion. The law department, the chief of police, crown prosecutor, and the health department will co-operate in dealing with food hogs.

TO DETERMINE THE NUMBER OF ALIEN ENEMIES IN MINES.

Edmonton, Mar. 27.—Premier Stewart this morning practically assured a deputation of members of the United Mine Workers that the provincial government will undertake a census of miners in the province to determine exactly the number of alien enemies employed in that occupation.

Premier Stewart at once brought up the subject of the employment of alien enemies in connection with the demands of the mine, saying that there was a strong feeling that men of the Anglo-Saxon race should be given consideration first. He asked how many foreigners were employed in the mines.

Mr. Wheatley replied that about 60 per cent. of the miners were of foreign birth, mostly Italians, Austrians and Russians. Not more than half of the 60 per cent. he insisted, were of alien enemy nationality, and nearly all of them were naturalized citizens. All the deputation claimed that the reports that 80 per cent. of the miners were alien enemies had been spread by enemies of the labor movement.

The trouble at the Moodie mine was cited both by the premier and the deputation. Mr. Stewart said that when he was in Ottawa there was a strong feeling that some drastic action should be taken.

NO CHANGE IN CAMPS OF THE FLYING CORPS.

Toronto, March 26.—So far as known at the Canadian headquarters of the Royal Flying Corps here, there will be practically no change in the camps and personnel of that organization in Canada and the United States, when the proposed amalgamation of the Royal Naval Air Service and Royal Flying Corps takes place shortly. The name of the combined corps will be the Royal Air Force, and it will operate under the air ministry as the third branch of the British military service. There may be some changes in the personnel, but the details as to this have not yet been arrived at.

HEAVY PENALTY IS IMPOSED ON ALIEN NOT REGISTERED.

What is believed to be the heaviest fine imposed on an unregistered alien in Edmonton since the passing of the order in council requiring Austrians, Germans and Turks to report to the police, was handed down by Arthur Mowatt, justice of the peace, Thursday morning in police court. Nicholas Wanychuck, an Austrian, was fined \$100 and costs for travelling about the country without a permit. Fines in previous cases of this nature have run from \$15 to \$30, with few of the latter amount. In legal circles the opinion was general Thursday that Mr. Mowatt's sentence to the forerunner of a more stringent policy in dealing with enemy subjects.

BENTLEY AND DISTRICT

THE IDLE THOUGHTS OF A BUSY FARMER.

Last week I visited Red Deer, one of the exciting suburbs of Bentley, and was pleased to find it still in the same place. The Board of Trade of Bentley propose building a country golf course in the vicinity of Red Deer P.O. They desire to escape the maddening crowd of a week end, and so we have picked on this rural retreat. A golf course will be laid out toward the brick yard, and Geo. Chapman's barn will make a nice hazard.

When in Lacombe we saw the "Duke" and enquired how he got there, and he replied that he came in on the "Bentley Flyer." It surprised me that he could have been abroad so early, as the "flyer" leaves Bentley at 9 a.m. He assured me that he was not abroad so early as the "flyer" had left when he got to Bentley, so he had to run after it. As the gang plank had been taken aboard he could not get on the Pullman coach, so had to run ahead and get on the cow catcher.

We called in at Sylvan Lake to see what progress is being made to meet next year's grain trade with the opening of the Sylvan Lake—Hainey Creek Ship Canal. Mr. Meyer's elevator is not yet started, and we saw no signs of the great wharf.

With severe winter weather, with shortages of feed, and in many places made an ample supply of dog meat. As I am a great believer in supporting the government in its efforts at war economy we do our best with meatless feeds, wheatless feeds, and potatoless feeds. To insure the whole of the keeping the regulations we now chain our dogs on Wednesdays and Fridays to enforce meatless days on them also. We do not, however, on Wednesdays supply them with lamb chops, that the substitute for meat.

Yon Hertling, with his sighs and sorrows for Belgium, Serbia, etc., was in the city, and we saw the Walrus in "Alice through the looking glass," when he sympathized with the oysters:

"I leap for you," the Walrus said, "I deeply sympathize."

With sighs and tears he sorted out those of the largest size.

From his pocket he produced a sheet before his streaming eyes.

Isn't it easy to tell the other man how he ought to run his business? We were not a man who told us the farmers were the only men making money these days. We thought the hired man was making more out of the farm than the farmer, which raised his ire. Why, he said, if a man wanted a pair of boots he had to pay the price of three. I replied that he had the farm and he could make the man's wages had increased three times in volume, and he had no capital invested. It was immaterial to him whether the crop was a success or otherwise, his pay had to come off the farm anyway. The grub the farmer fed him had doubled or better it.

price, the machinery the farmer used had trebled in price. It was easy to talk about \$2.00 variety, and all wheat grown wasn't \$2.00 variety, and the other about cost just as much to raise. Besides that there was a lot of risk. I had a number of neighbors so completely lulled out they tried to buy feed for their stock and grain for their hogs, and they claimed to be out of pocket. "Oh," he exclaimed, "they are in a position to buy feed and grain from the dealer-sellers and retailers." I thought there in the position of men who had lost a year's labor through a fifteen per cent. drop in the price of wheat. I told me how to raise cheap hogs the first requisite being alfalfa. I remarked neither I nor any of my neighbors had any, although some had tried it. He then told me how to grow alfalfa, but as he neglected to mention one of the leading items to success I figured he knew as much of practical farming as does a lot more of his long winded friends.

Isn't it rather a joke Mr. Harry Rauder going round lecturing to the women of Canada on thrift and travelling in her private Pullman car to do it?

The bird of peace, V. Jennings Bryan, got what he deserved when a Toronto audience refused to hear him. That old duck seems to have lots of gall.

This country has a job on hand when the war is over in tackling the aliens of Canadian citizenship, who are filled with the most grotesque and fantastic theories of civil government. We may just as well call them Boleheviks at once and let it go at that, their ideas are just as practical as the present government is.

The present government is altogether too slack in the way they treat our alien enemies. When they were enjoying hellish days in the east on account of coal shortage, what was happening in the west? The mounted police armed with a machine gun had to be called out to protect mine managers from being murdered and miners property destroyed by strikers, nearly all aliens, and more than half enemy aliens. What was done to these beauties? Nothing. Isn't that something to think about? What would happen to a bunch of Scotch and English miners if they went on strike these days in Germany. They would be backed against a wall and filled full of lead, then, if they had been fed as the Germans are in Canada, their carcasses would be fried down for grease. However, having been fed in Germany they would probably be too thin and only of use in the bone yard as fertilizer. French and British who are held in Germany aren't receiving living wages, and enemy aliens are allowed in this country to hold her up for any wages they ask, while our boys have to go over there and fight and get a little over \$100 a day. Almost all our best farm laborers volunteered early in the war. The kind we have left are mostly from the bunch who are looking for the big pay and the easy job. The alien can work or not as he likes. Now I don't want anyone to think we would have been better with Laurier in power. I don't. If Wilfrid and Bourassa had got the whip hand we loyal farmers might have had to

set out and work for enemy aliens. Another bunch here who need attention are the disloyal British. I have heard Englishmen say England was nothing to them. I figure those men lower than a Hun. They just wait over their brutalities, certainly believe in their country. Can you imagine even a Digger Englishman who was so low as to say his country was nothing to him?

When I hit Canada I was rather full of insular prejudice. I had met a lot of Yankees who were so full of blow and bombast and could see no good except in the United States that I was inclined to be very critical. I have a hunch, however, that I was a Scotsman, and think the Scots the best on earth. Now I am also proud to be a Canadian and think the Canadians come next to the Scotch.

Although the Bentley Co-operative Store is not yet organized, I hear its troubles have begun. One of the future directors insists that it shall be run on a cut price basis. Incidentally he is the father of a very large and well known store in the city. He is strongly and stubbornly opposed by another future director who insists on the store being run to pay dividends.

With a week of soft weather this neighborhood is getting in fine shape for a web-footed Oregonian to paddle round in.

THE SANCTUARIES OF PALESTINE

Not in the gule of conquerors did the victorious British General Allenby with his staff and foreign attaches enter Jerusalem. They entered almost in the guise of pilgrims. They would not use the new road cut through the walls in 1898 near the Temple Mount, but the German Emperor might ride in where none had ever ridden before. Instead, all dismounted outside the gate and entered through the ancient doorway humbly and on foot.

So writes Monsignor Barnes, an English Roman Catholic ecclesiastic, in the New York Sun, and adds some comment concerning the various sanctuaries in Palestine. General Allenby's proclamation to the inhabitants of Jerusalem read:

Since your city is regarded with affection by the adherents of three of the greatest religions of mankind, and its walls have been consecrated by the prayers and pilgrimages of multitudes of devout people of these three religions, I, as Commander-in-Chief, have ordered that the city shall be preserved as a place of prayer of whatever form belonging to the great religions of mankind will be maintained, and that no religious monuments to the existing customs and beliefs of those to whose faiths they are sacred.

In pursuance of these promises measures were taken to make sure that no damage should be done to any sanctuary by the adherents of a hostile faith. This but follows the example of the Saracen conqueror Omar who (A.D. 636) gave the Christians full and honorable terms. For over four centuries, until the Moslem conquest, there was no persecution. So now the Mosque of Omar, standing on the site of Solomon's temple, is of moment to Jews, Christians and Mohammedans; indeed, the Mohammedans deem it the second holiest place on earth. In the future, however, religious monuments, such as the Moslems' Dome of the Rock, will have to be done to secure to Jews and Christians who also clearly have religious interests in this spot, at least the right of free access, for the moment the necessary thing was to reassure the Mohammedan world that a Christian triumph does not mean any insult to their faith, and so Mohammedan guards, drawn from the officers and men of the Indian army, were set over this place, as over the tomb of Abraham at Hebron, Abraham being a revered patriarch and prophet also among the Mohammedans.

As to the suggestion that Palestine be made into a small Jewish State, under international guaranty, there can be no fear. Monsignor Barnes believes that Jews will ever be allowed to dominate Christian or Mohammedan sanctuaries, "nor is there any reason to think they would wish to do so."

The most prominent Christian sanctuaries are the Basilica of the Nativity at Bethlehem, and the Church of the Holy Sepulchre at Jerusalem. Every visitor to Jerusalem, writes Monsignor Barnes, will remember the Moslem guard sent over the Church of the Holy Sepulchre, whose presence seemed the very embodiment of the shamefulness of the Christian position.

He continues: "It was a hereditary office that went back for centuries. To retain such an office would be intolerable under the present circumstances. On the other hand, to abolish it might give the idea that it was the beginning of the end of all Moslem institutions. General Allenby, with the greatest of tact and a finesse that was almost French, solved the difficulty in this way. He asked the Moslems to retain the position and its emoluments, but no longer as the symbol of an alien supremacy, or with any sacred authority, but as a memory of the magnanimity of Omar, and for a perpetual remembrance of the way in which long ago, before the evil days of Turkish domination, the authorities of Islam used their power not to destroy, but to protect the Christian institutions."

Thus from every point of view the British conquest of Palestine is an event not only of surpassing romantic interest, but of epoch-making political and religious importance. As to religion it may mark the beginning of a new age of tolerance.
